APC Back-UPS Pro 280VA - UPS - 280 VA - external - UPS battery lead acid - 3 output connector(s)

Part Number: BP280S

## Description

Power problems wreak havoc on today's multitasking networked or stand-alone PCs. An APC Back-UPS Pro instantly switches your computer to emergency battery backup power and allows you to work through brief power outages without data loss or downtime. The APC Back-UPS Pro uses PowerChute plus power management software with WorkSafe to save files and shut down your computer safely in the event of an extended power failure. High-performance surge suppression for AC line and network/dataline protects all paths to your system from electrical noise and damaging power surges - even lightning.
