Both	124921	APC Back-UPS Pro LS 500-500VA; 120V (BP500UC)

*Computer users fall into two groups: those who have lost data due to power problems and those who are going to. The more you use your computer, the sooner you'll have to pay for that loss. An APC USB Back-UPS Pro instantly switches your computer to emergency battery backup power and allows you to work through brief power outages without data loss or downtime.*

APC offers the first uninterruptible power supply (UPS) with a USB port that is Designed for Microsoft Windows 98. The Back-UPS Pro 500 is uniquely designed to improve your productivity by ensuring that your Windows 98 PC, internet connection and all of your peripherals are protected with high-performance surge suppression and intelligent battery backup. The unit has (7) NEMA 5-15 receptacles (4 with battery back-up, 3 with surge protection only) and provides protection for up to two telephone lines. The UPS continuously conditions the power coming into your computer, and instantly switches your computer to emergency battery backup power during brief power outages without data loss or downtime. The UPS is output power rated at 500VA (315W) and will power a Pentium II Tower with a 21" monitor for up to 8 minutes.

The unit comes with APC's Power Management Extensions software. The software integrates with Windows 98 to automatically save your files and shut down your computer in the event of an extended power outage. The software provides a graphical display of the UPS performance and available runtime. This software represents a revolutionary development in UPS power management, because APC Power Management Extensions is completely integrated with the operating system. It adds an additional tab to the Windows 98 power management properties application. The additional tab is titled "APC UPS Status". The graphical display shows UPS status data, available runtime, and has a configurable low battery level for the UPS battery.

The UPS also comes with a 2 year warranty on the unit and \$150,000 Lifetime Equipment Protection Policy

### **Product Features**

Output Voltage	120 V
Input Voltage	120 V
Battery Form Factor	Proprietary
Output Connector(s)	7 x power NEMA 5-15
Average Run Time	14.1 min at half load
Power Provided	315 Watt
Device Type	UPS
Battery	UPS battery - lead acid
Warranty	2 years warranty
Weight	15.9 lbs
Dimensions (WxDxH)	5 in x 7.9 in x 9.4 in
Form Factor	External

### **Compatibility Notes**

Windows XP-compatible software included

### **Ports/Connectors**

- (7) NEMA 5-15 receptacles
- (4) RJ-11 ports (2-line protection, two in and two out)
- (1) USB communication port

### **Power Notes**

120 Vac single phase, 50 or 60Hz +/- 5% (autosensing)

### **Product Details**

Labor Warranty	2 Years
Product Warranty	2 Years
