

# APC Smart-UPS 620

## Product Information

620VA battery backup, 4 outlet with both RJ-11 and RJ-45 protection and the PowerChute Smart-UPS Bundle

Mfg. Part No.: SU620NET

## OVERVIEW

### Performance power protection for servers and networks

The Smart-UPS 620 protects your data by supplying network-grade battery backup when power fails. With PowerChute plus software the uninterruptible power supply (UPS) will safely store data and shut down your network operating system before the battery is fully discharged, whether you're there or not. SmartSlot internal accessory slot allows you to install optional accessories to enhance the performance of your UPS. APC Smart-UPS is the perfect UPS for file servers, minicomputers, UNIX CPU's, internet hubs, telecommunications systems and other mission-critical applications
